SCOPE OF PRACTICE

Outpatient Substance Abuse/Chemical Dependency services. Including: Counseling, Assessments/Evaluations, Education, Relapse Prevention, After Care Treatment and Interventions.

Private Practice since 1988.

Individual Counseling: Substance Abusers, alcoholics, those who are addicted to other drugs, Gambling issues, spouses and family member of Substance Abusers, codependency, and (ACA'S) adults, who as children, were raised in a family system where alcoholism and other drug addictions were prevalent and how it affected them as children and adults.

Couples: where there has been a history of Substance Abuse/Chemical Dependency.

Assessment/Evaluations and Treatment through the Federal Department of Transportation (DOT) with individuals who work in "Safety-Sensitive Positions" and violate DOT rules and regulations regarding Substance Abuse/Chemical Dependency. (SAP Clients)

Assessment/Evaluations with clients who are referred through the Probation Department.

Assessments/Evaluations and Treatment with clients who have received a DUI Citation from another state and need to complete program recommendations.

**INTERVENTIONS:** I have been doing family interventions since 1988 utilizing the Johnson Model and have developed a process that works very well for me and the families I work with.
